

La Pierrière near Geneva Dec. 23^d 1874.

My dear Sir,

I have to thank you for your very kind letter of May 25th and your kind offer of American Epilobium. —

My manuscript is advancing and, if God permits, I will go in the spring to Paris and London to consult the documents I cannot have sent here. —

If you would be kind enough to send me at once the specimens you have, I will take advantage of my stay in Paris to have ^{drawn} the American species (E. luteum, obovatum, etc. . . .) which have not yet been figured. —

If you will please be kind enough to

and the packages to my address care of Messrs
A. Iselin & Co (my uncle) Wall St. New
York, they are very careful people and will
forward ~~them~~^{it} to me here. - I will not delay
the packages long here and will return it by
first opportunity. -

M^{re} Boissier begs to be kindly remembered
to you and M^{rs} Gray. She is busy printing
the 3^d vol. of *Flora Orientalis* which contains
the end of *Calyciflorae* and part of *Corolliflorae*. -
You will be glad to hear that M^r de Candolle
has found an editor in Paris ready to pursue the
work of the *Prodromus* for the *Microcotyledonae*.

yours very respectfully

your note was duly delivered to
D^r Müller.

W. Darbey Boissier
